Boundless Connections

Boundless Connections Kicking Off Its Innovation Showcase Events in Olean, NY

A series of Boundless Connections Innovation Showcase events is expected to kick off in Olean in March 2019 and will swoop through the nation over the next 2 years visiting 16 cities over the next 24 months.

Olean, NY, January 2, 2019 (PR-US): – Boundless Connections is organizing its inaugural Innovation Showcase event in Olean, NY. We are putting kids in middle and high school on stage (and live stream) to share their ideas on how to make the world a better place. This is a fundraiser for TECH Unleashed and the Olean Young Entrepreneurship Academy. The goal of this event is to put the next generation in the spotlight, give the world a glimpse of the future and support a couple of established local youth programs.

It all starts with a postcard inviting kids to register online for the event and to figure out the following: What is the idea? What does it fix? What kind of tech would be helpful? What kind of support does it need to happen?

They will attend a day long workshop to prep for their showcase presentation at the Boundless Connections TECHNOLOGY Center, complete with glamour shots and social media hashtags counting down to showtime. This event has 2 objectives, to highlight the future – right in our backyards and to retain local talent. The showcase audience includes family members, local and national businesses and organizations, political leaders and the red carpet press area. The live stream will reach an audience far beyond the local community.

So how can you get involved?

- **Press:** be a part of the Innovation Showcase and the red-carpet area and help put the youth in the spotlight. We look forward to partnering with local and national press to give these kids the attention and media support they deserve.
- **Sponsorship opportunities:** from local businesses to nationwide sponsors - there is a level for everyone to help make the Innovation Showcase events something to remember!
- **Vendors and partnerships:** Every event will highlight local and national innovating vendors.

Cities on the roadmap: Atlanta, Boston, Chicago, Denver, Fort Lauderdale, Huston, New York City, Olean, Philadelphia, Pittsburgh, Phoenix, Rochester, Pittsburgh, San Diego, San Jose, and Seattle.

About Boundless Connections: The Boundless Connections Technology Centers make state of the art digital technology accessible for everyone. The tech centers provide a focal point for young and old with various skill-sets and interests to collaborate and utilize the power of cutting-edge technology. The programs and events are designed to develop a technology pipeline and create a pathway for people to engage and solve local challenges with technology. These programs and events are tailored to various interest groups or demographics.
